

## AFFINITIZED MEDIUMS

In this natural world in which the natural thrives there can be no influx, either heavenly or infernal except some be *affinitized* to that which be heavenly or infernal. Thus "mediums" of these sorts of influences, bringing them forth out of themselves, become representatives of those heavenly or infernal societies of the Spirit World that they are or become affinitized with. To be "affinitized with" is to become ONE with, united in mind, heart and will to allow that communicating with and through unto it's manifesting upon the Earth plane.

Mediumship of the Old Testament Prophets brought forth a knowing of the Divine Will through those humans who sought to know the Divine Will so that they might follow it themselves. Through the obedience and desires to understand of *one*, many were blessed by the messages or in some cases they were so enraged by the messages that they sought to silence the messengers by threats, bodily injury, and in some cases, even death.

As well, hellish societies sought for mediums through which hellish dictation comes forth and such became portals, for hellish communications have come forth and hellish will obeyed upon the Earth plane.

As John the Baptist was declared by Jesus to "be" or to have the spirit of Elijah who had come as the messenger or "the voice of one crying in the wilderness, crying Make straight the way of the Lord" in the heart, so it shows that man must become cooperative with spirits of one sort or the other. Hence he will exhibit to greater and greater degrees that society he has come to be a part with and of.

"Love for" or "affinity with" thus promotes cooperation within. And ye are joined to whatever spirit society ye choose in the World of Spirits by your own will to be thus channels for the dissemination of their messages, their will and impact making it's manifestation on Earth through you.
